

STEM & Robotics ERP PRO Set

ADVANCED EDITION

E35.1 TEACHER'S GUIDE

The **STEM & Robotics ERP PRO Advanced Edition education set** is specially designed for Primary and Secondary school students. It combines the core subjects of STEM together with Robotics and includes high-level projects that lead to a deeper understanding of the underlying theory while also developing 21st century skills. The set comes in a convenient plastic storage tub that contains a large number of Engino structural and technical parts, together with advanced robotic devices such as ERP Pro controller, DC motors, a servo motor, LEDs, touch sensor, IR sensors, ultrasonic sensor and a gyroscope/accelerometer sensor with all necessary connecting cables. The set allows the construction of more than 10 Robotic models and 60 STEM models.
