PaceBot - Tangible STFM Quoidz & Robotics Sec

E18.1 TEACHER'S GUIDE

The FaceBot - Tangible STEM Qboidz & Robotics Set is the ultimate solution for Preschool & early Primary school students of ages 5-7. It is the combination of the Qboidz E05.1 which allows more than 20 models to be created from the younger age of 3, and the Junior Robotics set (E17.1) that steps up the complexity for the higher ages and includes the ERP M NI controller, sensors, light and motors with the Amazing FaceBot! The merging of creativity with the ability to code and animate models, provides a unique combination for open-projects and multi-level thinking.
